Our guide to better lighting.

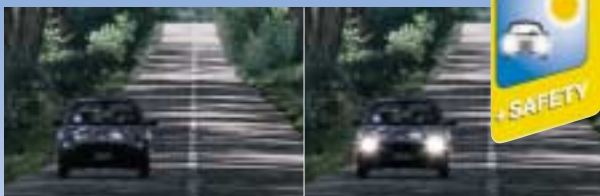

For information on the complete OSRAM Automotive Lighting Range go to

www.osram.com

For our most up-to-date product list go to
www.osram.de/cgi-bin/werkstatt.pl

The LIGHT@DAY® Range

The latest in lighting technology from OSRAM, the LIGHT@DAY® headlamp bulb is designed for daytime driving and offers increased safety for the driver and other road-users. Also available for use in auxillary lighting. Daytime driving with LIGHT@DAY® bulbs can reduce the number of road accidents by up to 35%.

* Source: Study carried out by the Regional Traffic Authority, Niedersachsen, Germany, October 1998 - September 1999.

The SILVERSTAR® Range

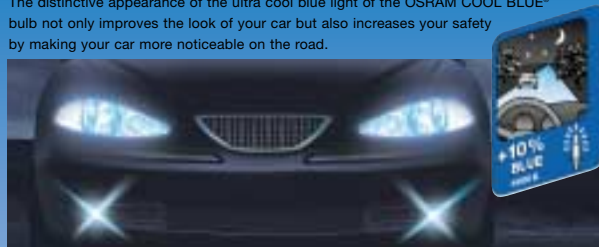

Offering up to 50% more light on the road and a 20m beam extension compared to standard bulbs, the OSRAM SILVERSTAR® range is the choice for any driver.

* Interchangeable with standard bulbs.

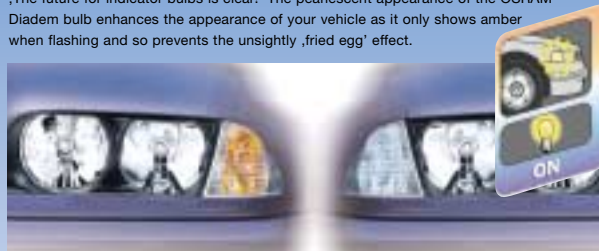

The COOL BLUE®-Range

The distinctive appearance of the ultra cool blue light of the OSRAM COOL BLUE® bulb not only improves the look of your car but also increases your safety by making your car more noticeable on the road.

DIADEM® – Indicator Bulbs

„The future for indicator bulbs is clear!“ The pearlescent appearance of the OSRAM Diadem bulb enhances the appearance of your vehicle as it only shows amber when flashing and so prevents the unsightly ‚fried egg‘ effect.

OSRAM Eurobox: The Emergency Bulb Kit

The OSRAM Eurobox comes in five varieties and is designed for use in all major vehicle types. This handy and easy-to-use kit contains everything you need to change any of your car's bulbs, as well as advice on how to do so. The OSRAM Eurobox ensures that you can continue your journey safely, wherever you may be!
